

PATRIOT BATTERY METALS INC.
Consolidated Financial Statements
As at and for the Years Ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

INDEPENDENT AUDITORS' REPORT

To the Shareholders and Directors of Patriot Battery Metals Inc.

Opinion

We have audited the consolidated financial statements of Patriot Battery Metals Inc. and its subsidiaries (the "Company") which comprise the consolidated statements of financial position as at March 31, 2022 and 2021, and the consolidated statements of loss and comprehensive loss, changes in equity and cash flows for the years then ended, and the related notes comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Material Uncertainty Related to Going Concern

We draw attention to Note 1 of the accompanying consolidated financial statements, which describes matters and conditions that indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information, which comprises the information included in the Company's Management Discussion & Analysis to be filed with the relevant Canadian securities commissions.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditors' report is Fernando J. Costa.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

1. CORPORATE INFORMATION

Patriot Battery Metals Inc. (the “Company” or “Patriot”) was incorporated on May 10, 2007, under the British Columbia Business Corporations Act. The principal business of the Company and its subsidiaries is the identification, evaluation and acquisition of exploration and evaluation properties, as well as exploration of those properties once acquired. The Company is domiciled in Canada and is a reporting issuer in British Columbia and Alberta. The address of its head office and records office is Suite 700-838 W Hastings Street Vancouver, BC V6C 0A6. The Company has mineral properties in British Columbia, Northwest Territories, Quebec, and Idaho, USA.

On October 17, 2019, the shares of the Company commenced trading on TSXV on a consolidated basis under the stock symbol “GMC”.

On June 7, 2021, the Company’s common shares were consolidated on the basis of one (1) new share for every three (3) old shares and the Company’s name was changed from Gaia Metals corp. to Patriot Battery Metals Inc. On June 10, 2021, the shares of the Company commenced trading on CSE on a consolidated basis under the stock symbol “PMET”.

As at March 31, 2022, the Company has not yet determined whether the properties contained ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation properties is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and future profitable production from the properties or realizing proceeds from their disposition.

For the year ended March 31, 2022, the Company incurred a comprehensive loss of \$3,881,888 (2021 – \$775,048). As at March 31, 2022, the Company had an accumulated deficit of \$12,769,590 (2021 – \$8,887,751) which has been funded by the issuance of equity. The Company’s ability to continue its operations and to realize its assets at their carrying values are dependent upon obtaining additional financing sufficient to cover its operating costs.

In order to meet exploration expenditure requirements and option payment and compliance obligations, the Company may need to seek additional sources of equity financing or debt financing. There is no assurance these activities will be successful. If the Company is unable to raise additional capital in the future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern as described. These consolidated financial statements (the “Financial Statements”) do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying Financial Statements.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

1. CORPORATE INFORMATION (continued)

To the date of this report, the spread of COVID-19 pandemic has severely impacted many local economies around the globe. In many countries, including Canada, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions. As at the date of this report, the Company's exploration activities were still reduced by the restrictions imposed due to the COVID-19.

2. BASIS OF PREPARATION

2.1 Basis of presentation

The Financial Statements include the accounts of the Company and Metals Nevada Corp. ("Metals Nevada"), the US subsidiary of the Company incorporated on March 2, 2021.

On September 10, 2012, the Company incorporated a wholly owned subsidiary, Petro Grande Energy Inc., which had been inactive and was dissolved during the year ended March 31, 2021. The comparative Financial Statements include the accounts of the Company and its previously wholly owned subsidiary, Petro Grande Energy Inc. All material inter-company balances and transactions have been eliminated upon consolidation.

The Company's Financial Statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in Note 11, and are presented in Canadian dollars except where otherwise indicated. The functional currency of Metals Nevada is U.S. Dollars. The assets and liabilities of Metals Nevada are translated into Canadian dollars at the rate of exchange prevailing at the reporting date and their income and expense items are translated at average exchange rates for the period. Exchange differences arising on the translation are recognized in other comprehensive income. These Financial Statements are presented in Canadian dollars, which is the Company's functional currency.

2.2 Statement of compliance

The Financial Statements of the Company have been prepared in accordance with and using accounting policies in full compliance with International Financial Reporting Standards ("IFRS") and International Accounting Standards ("IAS") issued by International Accounting Standards Board ("IASB").

These Financial Statements were approved and authorized for issue in accordance with a resolution from the Board of Directors on June 20, 2022.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

2.3 Adoption of new and revised standards and interpretations

The IASB issued a number of new and revised IASs, International Financial Reporting Standards (“IFRS”), amendments and related IFRICs which are effective for the Company’s financial year beginning on April 1, 2020. The Company has adopted all the following new standards relevant to the Company for the year ended March 31, 2021.

- IFRS 10 ‘Consolidated Financial Statements’ amendments relate to sale or contribution of assets between and investor and its associate or joint venture and are applicable for annual periods beginning on or after a date to be determined by the IASB.
- IAS 1 ‘Presentation of Financial Statements’ (“IAS 1”) and IAS 8 ‘Accounting Policies, Changes in Accounting Estimates and Errors’ (“IAS 8”) were amended in October 2018 to refine the definition of materiality and clarify its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating, or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

The adoption of the above standards did not have a material impact on the Company’s Financial Statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Significant accounting judgments, estimates and assumptions

The preparation of these Financial Statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These Financial Statements include estimates, which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the Financial Statements and may require accounting adjustments based on future occurrences.

Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions, and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Critical accounting estimates

- i. the inputs used in accounting for share-based payment expense in profit or loss;
- ii. the assessment of indications of impairment of exploration and evaluation properties and related determination of net realizable values and write-down of the properties where applicable;
- iii. the assessment of the amount of decommissioning liabilities;
- iv. expected future tax rates used in the deferred income tax disclosures.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

3.1 Significant accounting judgments, estimates and assumptions (continued)

Critical accounting judgments

- i. the determination of categories of financial assets and financial liabilities has been identified as an accounting policy which involves judgments or assessments made by management;
- ii. the determination of whether it is likely that future taxable profits will be available to utilize against any deferred tax assets; and
- iii. the determination of the Company's ability to continue as a going concern.

3.2 Cash and cash equivalents

Cash and cash equivalents consist of cash and liquid investments, which are readily convertible into cash with maturities of three months or less when purchased. The Company's cash and cash equivalents are invested with major financial institutions and are not invested in any asset-backed deposits or investments.

3.3 Prepaid expenses

Prepaid expenses consist of expenditures paid for future services which will occur within one year. Prepaid expenses include cash prepayments for management services, rent expense, and transfer agent fees which are being amortized over the terms of their respective agreements.

3.4 Exploration and evaluation properties

All costs related to the acquisition, exploration and development of exploration and evaluation properties ("E&E assets") are capitalized. Upon commencement of commercial production, the related accumulated costs are amortized against projected income using the units of production method over estimated recoverable reserves. Management annually assesses carrying values of properties for which events and circumstances may indicate possible impairment. Impairment of a property is generally considered to have occurred if (1) the property has been abandoned; (2) there are unfavorable changes in the property economics; (3) there are restrictions on development; or (4) when there has been an undue delay in development, which exceeds three years. In the event that estimated discounted cash flows expected from its use or eventual disposition is determined by management to be insufficient to recover the carrying value of the property, the carrying value is written down to the estimated recoverable amount.

The recoverability of exploration and evaluation properties and exploration and development costs is dependent on the existence of economically recoverable reserves, the ability to obtain the necessary financing to complete the development of the reserves, and the profitability of future operations. The Company has not yet determined whether or not any of its future exploration and evaluation properties contain economically recoverable reserves. Amounts capitalized to exploration and evaluation properties as exploration and development costs do not necessarily reflect present or future values. When options are granted on exploration and evaluation properties or when properties are sold, proceeds are credited to the cost of the property.

If no future capital expenditure is required and proceeds exceed costs, the excess proceeds are reported as a gain.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

3.4 Exploration and evaluation properties (continued)

Government grants related to exploration and evaluation properties

Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions and requirements of the approved grant program and there is reasonable assurance that the grant will be received. Government grants are recorded as a reduction of carrying value of the exploration and evaluation properties acquired and shall be amortized to profit or loss as a reduced depreciation expense.

3.5 Income taxes

Income tax on the profit or loss for the periods presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at year-end, adjusted for amendments to tax payable with regards to previous years.

Taxes on income in the periods are accrued using the tax rate that would be applicable to expected total annual earnings. The tax rate used is the rate that is enacted or substantively enacted.

Deferred tax is provided using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position reporting date applicable to the period of expected realization or settlement.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

3.6 Decommissioning, restoration and similar liabilities

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration or development of an exploration and evaluation property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for, and capitalized at the start of each project to the carrying amount of the asset, along with a corresponding liability as soon as the obligation to incur such costs arises. The timing of the actual rehabilitation expenditure is dependent on several factors such as the life and nature of the asset, the operating license conditions and, when applicable, the environment in which the mine operates.

Discount rates using a pre-tax rate that reflects the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the unit-of-production or the straight-line method. The corresponding liability is progressively increased as the effect of discounting unwinds creating an expense recognized in profit or loss.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

3.6 Decommissioning, restoration, and similar liabilities (continued)

Decommissioning costs are also adjusted for changes in estimates. Those adjustments are accounted for as a change in the corresponding capitalized cost, except where a reduction in costs is greater than the unamortized capitalized cost of the related assets, in which case the capitalized cost is reduced to nil and the remaining adjustment is recognized in profit or loss.

The operations of the Company have been, and may in the future be, affected from time to time in varying degree by changes in environmental regulations, including those for site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company are not predictable.

The Company has no material restoration, rehabilitation, and environmental obligations as the disturbance to date is immaterial.

3.7 Share-based payments

Share-based payments to employees and others providing similar services are measured at the estimated fair value of the instruments issued on the grant date and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of the goods or services received or the fair value of the equity instruments issued if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received. The amount recognized as an expense is adjusted to reflect the number of awards expected to vest. The offset to the recorded cost is to equity settled share-based payment reserve.

Consideration received on the exercise of stock options is recorded as share capital and the related equity settled share-based payment reserve is transferred to share capital. Charges for options that are forfeited before vesting are reversed from equity settled share-based payment reserve.

3.8 Loss per share

Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of common shares outstanding during the year. The Company applies the treasury stock method in calculating diluted loss per share. Diluted loss per share excludes all dilutive potential common shares if their effect is anti-dilutive.

3.9 Share issue costs

Professional, consulting, regulatory and other costs directly attributable to financing transactions are recorded as deferred financing costs until the financing transactions are completed, if the completion of the transaction is considered likely; otherwise, they are expensed as incurred. Share issue costs are charged to share capital when the related shares are issued. Deferred financing costs related to financing transactions that are not completed are expensed.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

3.10 Warrants issued in equity financing

The Company engages in equity financing transactions to obtain the funds necessary to continue operations and explore and evaluate resource properties. These equity financing transactions may involve issuance of common shares or units. A unit comprises a certain number of common shares and a certain number of share purchase warrants.

Depending on the terms and conditions of each financing agreement, the warrants are exercisable into additional common shares prior to expiry at a price stipulated by the agreement. Warrants that are part of units are accounted for using the residual method, following an allocation of the unit price to the fair value of the common shares that were concurrently issued. Warrants that are issued as payment for an agency fee or other transactions costs are accounted for as share-based payments.

3.11 Flow-through shares

Current Canadian tax legislation permits a company to issue securities referred to as flow-through shares whereby the Company assigns the tax deductions arising from the related resource expenditures to the shareholders. The issue of flow-through shares is in substance an issue of ordinary shares and the sale of tax deductions. At the time the Company issues flow-through shares, the sale of tax deductions is deferred and presented as other liabilities in the statement of financial position to recognize the obligation to incur and renounce eligible resource exploration and evaluation expenditures. The tax deduction is measured as the difference between the current market price of the Company's common shares and the issue price of the flow-through share. Upon incurring and renouncing eligible resource exploration and evaluation expenditures, the Company recognizes the sale of tax deductions as a tax deduction recovery on the statement of comprehensive loss and reduces the other liability.

To the extent that the Company has deferred tax assets in the form of tax loss carry-forwards and other unused tax credits as at the reporting date, the Company may use them to reduce its deferred tax liability relating to tax benefits transferred through flow-through shares.

3.12 Impairment of non-financial assets

At the end of each reporting period, the Company assesses each cash-generating unit to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discounted rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period.

For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

3.12 Impairment of non-financial assets (continued)

When impairment subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate and its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

3.13 Financial assets

At initial recognition, financial assets are classified as subsequently measured at amortized cost, fair value through other comprehensive income (“FVTOCI”) or fair value through profit or loss (“FVTPL”). Financial assets are recognized initially at fair value, unless they are trade receivables that do not contain a significant financing component in accordance with IFRS 15, which shall be measured at their transaction price. The subsequent measurement of financial assets depends on their classification based on both the Company’s business model for managing the financial assets and the contractual cash flow characteristics of the financial assets as follows:

Amortized Cost

The financial asset is subsequently measured at amortized cost if both the financial asset is held within a business model whose objective is to hold the financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Such assets are carried at amortized cost using the effective interest method. Gains and losses are recognized in profit or loss when the financial assets are derecognized or impaired, as well as through the amortization process. Transaction costs are included in the initial carrying amount of the asset.

Financial Assets at FVTOCI

The financial asset is subsequently measured at FVTOCI if both the financial asset is held within a business model whose objectives achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding or if an irrevocable election was made for certain equity instruments at initial recognition. After initial recognition, the financial assets are measured at fair value, with gains or losses recognized within other comprehensive income except for impairment gains (losses) and foreign exchange gain (losses). Accumulated changes in fair value are recorded as a separate component of equity until the financial asset is derecognized, at which point, they are reclassified from equity to profit or loss as a reclassification adjustment. Transaction costs are included in the initial carrying amount of the asset. The Company does not have any assets measured at FVTOCI.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

3.13 Financial assets (continued)

Financial Assets at FVTPL

A financial asset shall be measured at FVTPL if it is not measured at amortized cost or at FVTOCI. If the financial asset that would otherwise be measured at FVTPL is not acquired or incurred principally for the purpose of selling or repurchasing it in the near term, not part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking or a derivative, the Company may make an irrevocable election at initial recognition to present subsequent fair value changes of the equity instrument in OCI. Transaction costs associated with financial assets at FVTPL are expensed as incurred. These assets are carried at fair value with gains or losses recognized in profit or loss. Cash and cash equivalents are included in this category of financial assets.

3.14 Impairment of financial assets

The Company shall recognize a loss allowance for expected credit losses on financial assets measured at amortized cost or FVTOCI, a lease receivable, a contract asset or a loan commitment. If the credit risk on the financial instrument has increased significantly since initial recognition, the loss allowance shall be measured at an amount equal to the lifetime expected credit losses, otherwise, it shall be measured at an amount equal to the 12-month expected credit losses.

3.15 Financial liabilities

At initial recognition, financial liabilities are classified as financial liabilities measured at amortized cost unless they are financial liabilities at FVTPL (including derivatives that are liabilities), financial liabilities that arise when a transfer of financial asset does not qualify for derecognition, financial guarantee contracts, commitments to provide a loan at a below-market rate or contingent consideration recognized by an acquirer in a business combination. Financial liabilities are recognized initially at fair value. Transaction costs directly attributable to the issue of a financial liability are included in the initial carrying value of financial liabilities if they are not measured at FVTPL. The subsequent measurement of financial liabilities depends on their classification, as follows:

Financial Liabilities Measured at Amortized Cost

All other financial liabilities are initially recognized at fair value, net of transaction costs. After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any issue costs, and any discount or premium on settlement. Gains and losses arising on the repurchase, settlement or cancellation of liabilities are recognized respectively in interest, other revenues and finance costs. Accounts payables and promissory note payables are included in this category of financial liabilities.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

3.15 Financial liabilities (continued)

Financial Liabilities at FVTPL

Financial liabilities are carried at fair value with gains or losses recognized in net income (loss). Where the financial liability is designated as at FVTPL, only the amount of change in the fair value of the financial liability that is attributable to the changes in the credit risk of that liability shall be presented in OCI and the remaining amount of changes in fair value presented in profit or loss. Transaction costs on financial liabilities at FVTPL are expensed as incurred. The Company does not have any liabilities measured at FVTPL.

Other Financial Liabilities

The Company does not hold or have any exposure to derivative instruments, financial liabilities that arise when a transfer of financial asset does not qualify for derecognition, financial guarantee contracts, commitments to provide a loan at a below-market rate or contingent consideration recognized by an acquirer in a business combination.

3.16 De-recognition of financial assets and liabilities

Financial assets are derecognized when the contractual rights to receive cash flows from the assets expire or, the financial assets are transferred, and the Company has transferred substantially all the risks and rewards of ownership of the financial assets. On de-recognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received, including any new asset obtained less any new liability assumed, is recognized in profit or loss. Where a transfer does not result in a derecognition due to continuing involvement, the Company shall continue to recognize the transferred asset and recognize a financial liability of the consideration received.

For financial liabilities, they are derecognized when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

4. CASH AND CASH EQUIVALENTS

As at March 31, 2022, a total amount of \$11,605 (March 31, 2021 - \$11,500) is secured against the Company's credit cards and held in a Guaranteed Investment Certificate ("GIC"). The GIC earns interest at prime rate minus 2.7% (Note 5).

5. AMOUNTS RECEIVABLE

The Company's amounts receivable arises from Goods and Services Tax ("GST") and Quebec Sales Tax ("QST") due from the government taxation authorities and accrued interest calculated on the GIC (Note 4).

	March 31, 2022	March 31, 2021
GST receivable	\$ 223,880	\$ 4,107
QST receivable	254,632	6
Interest receivable	37	19
Total	\$ 478,549	\$ 4,132

6. PREPAID EXPENSES

The Company's prepaid expenses are broken down as follows:

	March 31, 2022	March 31, 2021
Prepaid management fees	\$ 16,500	\$ -
Prepaid rent	2,480	2,480
Prepaid transfer agent and filing fees	-	2,877
Prepaid insurance	4,050	-
Others	9,271	697
Total	\$ 32,301	\$ 6,054

Prepaid management fees consist of \$10,000 paid to the CEO and \$6,500 paid to a company controlled by the CFO of the Company (2021 – \$Nil) (Note 12).

(Expressed in Canadian dollars)

7.1 Hidden Lake Lithium Property

Joint Venture with Far Resources Ltd.

On January 22, 2018, the Company entered into an agreement to option out up to 90% of their interest in the Hidden Lake Property to Far Resources Ltd. (“Far”) (the “Hidden Lake Option Out Agreement”), except for the Royalty. On May 16, 2019, Far had formally notified the Company of its intention to terminate its remaining earn-in for the Hidden Lake Property, originally announced on January 22, 2018. Under the terms of the new agreement, a joint venture between the companies will be formed for future exploration of the property. Far maintains a 60-percent interest earned through satisfying the year 1 conditions of the Option Agreement and the Company maintains a 40-percent interest in Hidden Lake. Far will remain as Operator and is responsible for financing the Joint Venture's initial \$1 million in expenditures. As of the date of this report, no JV agreement has been completed yet.

On February 16, 2016, and as amended on November 27, 2017, the Company entered into an Agreement (the “Agreement”) with arm’s length parties for an option to acquire interest in two mineral claims located northeast of Yellowknife, Northwest Territories. Under the terms of the Agreement, the Company earned 100% interest by way of issuing 133,333 common shares (400,000 pre-consolidation) valued at \$380,000, cash of \$85,000, and total exploration expenditures of \$500,000.

The Hidden Lake Property is subject to 2% Net Smelter Royalty with respect to the production of all material from the property, 1% of which can be purchased back from an arm’s length party by the Company within 5 years of the regulatory approval (April 26, 2016) for \$2,000,000 (the “Royalty”).

7.2 Pontax Lithium - Gold Property

On July 25, 2016, and as amended on November 27, 2017, the Company entered into an agreement (the “Pontax Agreement”) with arm’s length parties for an option to acquire 100% interest in 104 mineral claims near Eastmain, Quebec by way of issuing 1,000,000 common shares (3,000,000 pre-consolidation) valued at \$360,000 and cash of \$50,000.

Regulatory approval for the Pontax Agreement was obtained on September 20, 2016. The Pontax Agreement is subject to a 3% Net Smelter Royalty (“NSR”). The Company can purchase 1.5% NSR within 5 years of regulatory approval by paying \$2,000,000 to arm’s length party.

The Company has since reduced its land position with the Pontax Property now comprised of 80 claims totaling 4,257.2 hectares.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

7.3 Golden Silica Property (formerly referred to as “ZimFrac” or “Golden Frac Sand”)

Due to expenditure requirements, the Golden Silica Property was let lapse in late 2021 as exploration spending was focused on the Company’s flagship asset, the Corvette-FCI Property. A portion of the Property was re-staked in January 2022, although the higher potential areas were not able to be reacquired. As such, the Company is currently assessing the strategic value of the reduced claim position. The Golden Silica Property is a non-core asset in the Company’s exploration portfolio.

On January 27, 2014, the Company entered into a sale and purchase agreement (the “ZimFrac Agreement”) with arm’s length parties (collectively, the “Vendors”) and purchased from the Vendors a 100% interest in certain silica claims located near Golden, BC (the “ZimFrac Property”). In consideration, the Company issued 13,333 common shares (40,000 pre-consolidation – 6,667 common shares or 20,000 pre-consolidation to each one of two arm’s length parties issued on February 6, 2014), subject to a 2% Net Smelter Royalty (“NSR”). The Company also issued 4,000 common shares in 2014 with a fair value of \$2.50 per share as a finder’s fee. The Company can purchase up to 1% NSR by paying an aggregate sum of \$1,000,000 (\$500,000 to each one of two arm’s length parties). The ZimFrac Agreement received regulatory approval on February 6, 2014.

On March 3, 2017, the Company entered into an agreement (the “Golden Frac Sand Agreement”) with arm’s length parties to purchase a 100% interest in certain mineral claims located near Golden, BC (the “Golden Frac Sand Property”) to expand the size of the ZimFrac Property. In consideration, the Company paid \$40,000.

The property has a Gross Over-Riding Royalty (“GORR”) of 2% payable to arm’s length party in the revenue from the sale of the production. The Company can purchase 1% of the GORR for \$2,000,000 at any time.

During the year ended March 31, 2022, the Company decided to focus on other Lithium projects. As a result the Company recognized an impairment loss of \$315,364 (2021 - \$Nil) relating to this property.

7.4 Quebec Properties

On September 18, 2017, the Company entered into an agreement (the “Quebec Properties Agreement”) with arm’s length parties for an option to acquire interest in 115 mineral claims in the Eastmain Property, Lac Du Beryl Property and Corvette Property, located in the James Bay Region, Quebec. Under the terms of the Agreement, the Company earned 100% interest by way of 16,667 share purchase warrants (50,000 pre-consolidation) issued and cash of \$45,000 to an arm’s length party. The Quebec Properties Agreement is subject to a 2% Net Smelter Return with respect to the production of all materials from the properties.

Since the initial property agreement, the Lac du Beryl Property had been expanded to comprise an additional 12 claims; however, these 12 claims were allowed to lapse in early 2020 and the Property is currently comprised of the original 18 claim block.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

7.4 Quebec Properties (continued)

The Eastmain Property has recently been reduced to 13 claims, down from the original 21 claims at the time of the Agreement. The Corvette Property – which is now comprised of the Corvette, FCI, Deca-Goose, and Felix claim blocks – is currently comprised of 417 claims, totaling 21,357 ha.

FCI Property (East and West blocks) and Felix Claim Blocks (forming part of the Corvette Property)

On September 4, 2018, the Company entered into an Option Agreement (the “Agreement”) with Osisko Mining Inc. (“Osisko”) to acquire up to a 75% interest in 28 mineral claims (“FCI East”) directly adjoining the Company’s 100% owned Corvette Property. Under the terms of the Agreement, the Company would earn an initial 50% interest. Subsequently, the Company signed a Purchase Agreement with O3 Mining Inc. (TSX.V: OIII) to achieve 100% ownership of the FCI Claims (Note 16). Schedule of payments and expenditures as follows:

	Common Shares*	Work exploration expenditures	Cash
	#	\$	\$
Upon closing date of the Agreement (issued) (September 14, 2018)	33,333	-	-
On or before the 1 st anniversary date of closing (issued) (September 14, 2019)	33,334	250,000	-
<i>To earn an initial 25% undivided interest</i>			
On or before the 2 nd anniversary date of closing (November 3, 2021, as amended) (earned)	-	800,000	-
<i>To earn an additional 25% undivided interest</i>			
On or before the 3 rd anniversary date of closing (November 3, 2022) (earned)	-	1,200,000	-
<i>To earn an additional 50% undivided interest (100% interest in total)</i>			
On or before the February 18, 2022, as amended (issued and paid)	1,800,000	-	3,000,000
Total	1,866,667	2,250,000	3,000,000

*Shares were adjusted to reflect share consolidation on June 7, 2021

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

7.4 Quebec Properties (continued)

Osisko will act as Operator of the FCI Property for the term of the 50% earn-in, with a Steering Committee of equal representation formed to provide advice and direction to the Operator. Upon completion of the 50% earn-in (September 14, 2021), a Joint Venture Corporation will be formed with the Company retaining an Option to acquire a further 25% interest, for a total of 75% undivided interest, through funding of the next \$2,250,000 in exploration expenditures. The Company may become Operator upon notice to Osisko that it intends to incur the \$2,250,000 in work expenditures for a final undivided interest of 75%. Osisko's remaining 25% interest may be further reduced through dilution if they elect to not fund their portion of subsequent exploration/development. If ownership falls below 10%, Osisko will have the right to convert this remaining interest into a 1% Net Smelter Royalty (NSR), of which, the Company retains the right to buy for \$5,000,000, and thereby, would obtain a 100% undivided interest in the FCI Property.

On April 23, 2019, the Company and Osisko entered into an amended agreement to include an additional 83 claims ("FCI West") under the same terms and conditions as the original agreement. No additional shares, cash, or work commitment is required by the Company, apart from general claim maintenance (i.e. renewal fees). Therefore, the FCI Property (East and West blocks) is currently comprised of 5,687 hectares over 111 claims.

Subsequent to the Agreement, the FCI Property was included in a corporate restructuring and spin-out of assets from Osisko into a new public company called O3 Mining Inc. ("O3 Mining"). The FCI Agreement was transferred from Osisko to O3 Mining at this time. Therefore, O3 Mining is now the Optionor and Operator of the Property and all other terms and conditions of the Agreement remaining unchanged.

During the year ended March 31, 2020, the Company provided a total of \$297,701 (total from the start cumulative of \$412,448) as cash call to Osisko/O3 Mining. As of March 31, 2020, and 2021, total expenditures amounted to \$412,448 (payable to Osisko/O3 Mining amounted to \$3,693 as at March 31, 2020 and 2021). Both parties have completed sufficient work expenditures to satisfy Year 1 of the Agreement. On September 19, 2019, the Company issued 33,333 common shares (100,000 pre-consolidation) at \$0.90 per share.

On July 6, 2020, the Company declared Force Majeure on the FCI Property due to COVID-19 and the agreement was paused for a period of approximately 50 days, resulting in a revised Anniversary Date of November 5, 2020, for Year 2.

On November 3, 2020, the Company declared Force Majeure due to COVID-19 and engaged with O3 Mining to work with respect to the FCI Property Option Agreement.

On January 26, 2021, the Company and O3 Mining finalized an agreement whereby the second anniversary expenditure amount of \$800,000 for the FCI Property with an original deadline of November 3, 2020, was further extended to November 3, 2021. Additionally, the Company issued 166,667 common shares (500,000 pre-consolidation) to O3 on February 25, 2021, and the Year 2 Anniversary Date was changed to November 3, 2021 (Note 9).

On July 7, 2021, the Company amended the Corvette-FCI agreement to extend the due date for the exploration expenditures commitment to November 3, 2022.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

7.4 Quebec Properties (continued)

On October 28, 2021, the Company has earned its initial 25% interest, as part of an Option to earn up to 50% interest, in the FCI Property as per the terms of the option agreement with O3 Mining Inc.

On November 8, 2021 the Company purchased a 100% interest in a mineral claim in Quebec, Canada for a \$20,000 cash payment (paid) an arm's length third party.

On January 13, 2022, the Company earned an additional 25% interest, for a combined 50% interest, in the FCI claims, as part of an Option to earn up to 75% interest, in the FCI Property as per the terms of the Option Agreement (the "Agreement") with O3 Mining Inc. ("O3 Mining").

On February 15, 2022, the Company consolidated its land position at Corvette through multiple acquisitions as well as direct staking. Specifically, the Company signed a Purchase Agreement with O3 Mining Inc. to achieve 100% ownership of the FCI Claims in consideration of an additional cash payment of \$3,000,000 (paid) and issuance of a total of 1,800,000 common shares (issued at \$0.64 per share) of the Company to O3 Mining. The existing Net Smelter Royalty (the "NSR"), as outlined in the original Agreement will remain unchanged.

On February 17, 2022 the Company purchased a 100% interest in the Deca-Goose and Felix claim blocks for a \$150,000 cash payment (paid) and issuance of a total of 1,800,000 common shares (issued \$0.64 per share) to Canadian Mining House (CMH), a private Quebec based company. CMH will also retain a 2% NSR which has 50% buyback option by the Company for \$2,000,000.

7.5 Silver Sands Vanadium Property

On November 13, 2018, the Company entered into an agreement with an arm's length party to acquire 100% interest in Silver Sands Vanadium Property (the "Silver Sands"), located in the Pine Pass area of eastern British Columbia. Silver Sands covers 3,735 hectares directly east of the Pine Pass Vanadium Property held by Ethos Gold Corp., which is located about 200 km north of Prince George, British Columbia.

Pursuant to the agreement, the Company acquired a 100% interest in Silver Sands by paying staking costs of \$15,000. The vendor will retain a 2% Net Smelter Return on the Property.

As of March 31, 2022, the Company has incurred \$14,776 (2021 – \$14,776) in mineral expenditures pursuant to the agreement. Pending advice from the Government, the Company is set to forego this property subject to BC government compensation schedule. As a result, during the year ended March 31, 2022, the Company recognized an impairment loss of \$14,776 relating to this property.

7.6 Freeman Creek Property

On June 4, 2020, the Company entered into an agreement with an arm’s length party to acquire a 100% interest in the Freeman Creek Property (“Freeman Creek”). Freeman Creek consists of 76 claims covering approximately 599 hectares located on Bureau of Land Management lands within Idaho, USA.

Under the terms of the Agreement, the Company may acquire a 100% interest in Freeman Creek by paying a total of \$90,000, issuing an aggregate 1,333,333 common shares (4,000,000 pre-consolidation) and 666,667 transferable common share purchase warrants (2,000,000 pre-consolidation), exercisable at \$0.30 per share (\$0.10 pre-consolidation) and expiring three years from issuance. Terms of the agreement are:

	Options*	Common shares*	Cash
	#	#	\$
Upon closing (paid)	-	-	10,000 ⁽¹⁾
Upon regulatory approval on August 12, 2020 (issued and paid)	333,333 ⁽²⁾	666,666 ⁽²⁾	40,000 ⁽¹⁾
Upon one-year anniversary of regulatory approval (August 12, 2021) (issued and paid)	333,334 ⁽⁴⁾	666,667 ⁽⁴⁾	40,000 ⁽³⁾
Total	666,667⁽²⁾	1,333,334⁽²⁾	90,000

⁽¹⁾ Paid to three arm’s length parties

⁽²⁾ Issued to three arm’s length parties. The warrants expire August 12, 2023.

⁽³⁾ Paid on August 12, 2021.

⁽⁴⁾ Issued to three arm’s length parties. The warrants expire March 23, 2024.

*Warrants and shares were adjusted to reflect share consolidation on June 7, 2021.

In the event that a gold equivalent resource of more than 1 million ounces is outlined within a NI 43-101 Resource Estimate on the Property, the Company shall pay \$1,000,000, payable in shares or cash or a combination of both, at the Company’s discretion. In the case of a share issuance, the shares shall be issued at a price using the average market price of the previous 30 trading days preceding the share issuance.

The vendors shall retain a 2.5% Net Smelter Return royalty on the Property, of which the Company shall have the right to purchase half (1.25%) for \$1,500,000.

On March 3, 2021, the Company amended the Freeman Creek Option agreement to accelerate the due date for the issuance of the 333,333 warrants (1,000,000 pre-consolidation) and 666,667 common shares (2,000,000 pre-consolidation) from August 12, 2021, to March 23, 2021. These warrants and shares were issued on March 23, 2021. In addition, a promissory note payable in the amount of \$40,000 was issued on March 3, 2021 and was due on or before August 12, 2021. The Company paid the promissory note on August 12, 2021. Pursuant to the issuance of the shares and warrants, the Company is deemed to have exercised the Option and have earned a 100% interest in and to the Property which will vest to the Company, subject to the NSR Royalty.

(Expressed in Canadian dollars)

9.1 Authorized share capital

The Company has authorized an unlimited number of common shares with no par value.

As at March 31, 2022, the Company had 78,548,991 common shares outstanding (2021 – 10,897,605).

9.2 Share issuances

During the year ended March 31, 2022, the Company issued common shares as follows:

During the year ended March 31, 2022, the Company issued 344,998 shares for warrants exercised at \$0.45 per share 1,584,493 shares for warrants exercised at \$0.36 per share and 13,248,428 shares for warrants exercised at \$0.25 per share. Fair value of warrants exercised amounted to \$97,996.

During the year ended March 31, 2022, 49,833 shares were issued for options exercised at \$0.27 per share, 50,000 shares were issued for options exercised at \$0.30 per share, 350,000 shares were issued for options exercised at \$0.39 per share and 50,000 shares were issued for options exercised at \$0.42 per share. Fair value of options exercised amounted to \$184,291.

During the year ended March 31, 2022, the Company issued 3,600,000 at \$0.64 per share for acquisition of Corvette-FCI Property (Note 7).

On March 21, 2022, completed a private placement of 6,000,000 units at a price of \$0.50 per unit for aggregate gross proceeds of \$3,000,000 (the “Offering”). Each unit is comprised of one common share and one transferable common share purchase warrant exercisable for three years at a price of \$0.75 (collectively, the “Units”). In addition to statutory four-month resale restrictions, the Units are subject to a contractual restriction on resale expiring 12 months from the completion of the Offering.

On December 21, 2021, the Company closed private placement through the issuance of 17,973,856 units at a price of \$0.612 per unit for aggregate gross proceeds of \$11,000,000. Part of the proceeds were recognized as Flow-through (“FT”) premium liability amounting to \$2,462,418 (Note 15) and shall be recognized as income over a period of 12 months from closing date. Each unit consists of one flow-through common share and one non-flow through common share purchase warrant. Each whole warrant entitles the holder to purchase one additional common share at a price of \$0.75 per share for two years. Finder’s fees of 977,778 compensation shares were paid.

On June 30, 2021, the Company completed a private placement for gross proceeds of \$3,709,120. The Company issued 23,182,000 units (post share-consolidation) at a price of \$0.16 per unit. Each unit consisted of one common share of the Company and one share purchase warrant. Each warrant entitles the holder to acquire one common share of the Company at an exercise price of \$0.25 for a period of 24 months from the closing date. The Company paid \$75,412 in cash finders’ fees and issued 471,328 warrants valued at \$111,611.

On June 7, 2021, the Company completed a share consolidation on one (1) post-consolidated share for every three (3) pre-consolidated shares. At June 7, 2021, the Company have 10,897,605 common shares issued and outstanding post consolidation. The number of shares, warrants and stock options shown in these consolidated financial statements are on a post-consolidation basis.

Exercised	(499,833)	0.27	-	-
Expired/Cancelled	(21,667)	0.15	(65,833)	2.40
Forfeited	-	-	(120,000)	-
Outstanding, end of period	5,069,300	\$ 0.45	890,800	\$ 0.37

*Options were adjusted to reflect the share consolidation on June 7, 2021

During the year ended March 31, 2022:

A total of 499,833 options were exercised. 21,667 options expired unexercised.

On December 23, 2021, the Company granted 2,200,000 incentive stock options to officers, directors and consultants of the Company. The options are exercisable at \$0.53 per share for a period of three years from the date of grant. The options were granted under and are governed by the terms of the Company's incentive stock option plan.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

9.4 Stock options (continued)

On August 6, 2021, the Company granted 2,500,000 incentive stock options to officers, directors, and consultants of the Company. The options are exercisable at \$0.39 per share for a period of three years from the date of grant. The options were granted under and are governed by the terms of the Company's incentive stock option plan.

On July 11, 2021, 16,667 stock options (50,000 pre-consolidation) expired unexercised.

On May 4, 2021, a total of 5,000 (15,000 pre-consolidation) stock options expired unexercised.

During the year ended March 31, 2021:

A total of 65,833 (197,500 pre-consolidation) stock options expired unexercised and 120,000 (pre-consolidation 360,000) stock options were forfeited.

On July 27, 2020, the Company granted an aggregate of 264,133 (pre-consolidation 792,400) incentive stock options to officers, directors, and consultants of the Company. Each option is exercisable into one additional common share at \$0.14 per share until July 27, 2022, and vested immediately on the date of grant. The fair value of \$88,925 in share-based payments was estimated using the Black-Scholes pricing model with a stock price of \$0.14, volatility of 181.66%, risk-free rate of 0.28%, dividend yield of 0%, and expected life of 2 years.

On October 13, 2020, 120,000 (pre-consolidation 360,000) stock options were forfeited. These options were held by directors, a company controlled by the Chief Financial Officer, and a company controlled by the Corporate Secretary.

On November 19, 2020, the Company granted an aggregate of 333,334 (pre-consolidation 1,000,000) incentive stock options to officers, directors, and consultants of the Company. Each option is exercisable into one additional common share at \$0.10 per share until November 19, 2023, and vested immediately on the date of grant. The fair value of \$83,080 in share-based payments was estimated using the Black-Scholes pricing model with a stock price of \$0.10, volatility of 177.55%, risk-free rate of 0.3%, dividend yield of 0%, and expected life of 3 years.

10. LOSS PER SHARE

The calculation of basic and diluted loss per share is based on the following data:

	Year ended	
	March 31, 2022	March 31, 2021
Net loss for the period	\$ (3,881,839)	\$ (775,048)
Weighted average number of shares – basic and diluted ¹	37,660,269	8,260,796
Loss per share, basic and diluted	\$ (0.10)	\$ (0.09)

¹Shares were adjusted to reflect the share consolidation on June 7, 2021.

The basic loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the year. The diluted loss per share reflects the potential dilution of common share equivalents, such as outstanding stock options, and share purchase warrants, in the weighted average number of common shares outstanding during the year, if dilutive. All of the stock options and the share purchase warrants were anti-dilutive for the year ended March 31, 2022 and 2021 as the Company incurred losses during these periods.

On June 7, 2021, the Company completed a share consolidation based on one (1) post-consolidated share for every three (3) pre-consolidated shares.

11. FINANCIAL INSTRUMENTS

(Expressed in Canadian dollars)

11. FINANCIAL INSTRUMENTS (continued)

11.2 Fair value

The fair value of financial assets and financial liabilities at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amount of all its financial assets and financial liabilities recognized at amortized cost in the financial statements approximates their fair value due to the demand nature or short-term maturity of these instruments.

The following table provides an analysis of the Company's financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the inputs used to determine the fair value are observable.

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data. As at March 31, 2022 and 2021, the Company does not have any Level 3 financial instruments.

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
As at March 31, 2022				
Financial assets at fair value				
Cash and cash equivalents	11,697,720	-	-	11,697,720
Total financial assets at fair value	11,697,720	-	-	11,697,720

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
As at March 31, 2021				
Financial assets at fair value				
Cash and cash equivalents	149,554	-	-	149,554
Total financial assets at fair value	149,554	-	-	149,554

There were no transfers between Level 1, 2 and 3 in the years ended March 31, 2022 and 2021.

(Expressed in Canadian dollars)

11. FINANCIAL INSTRUMENTS (continued)

11.3 Management of capital and financial risks

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the sourcing and exploration of mineral properties. The Company does not have any externally imposed capital requirements to which it is subject.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue common shares or dispose of assets or adjust the amount of cash.

The financial risk arising from the Company's operations are credit risk, liquidity risk, interest rate risk, currency risk and commodity price risk. These risks arise from the normal course of operations and all transactions undertaken are to support the Company's ability to continue as a going concern.

The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Credit risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the credit risk, the Company places these instruments with a high-quality financial institution.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage as outlined above.

The Company monitors its ability to meet its short-term exploration and administrative expenditures by raising additional funds through share issuance when required. As at March 31, 2022, all of the Company's accounts payable of \$862,200 (March 31, 2021 – \$19,175) have contractual maturities of 30 to 90 days are subject to normal trade terms. The Company's loans payables are due on demand. The Company does not have investments in any asset backed deposits.

Foreign exchange risk

Foreign exchange risk is the risk that the fair value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Company does not have significant foreign exchange risk as the majority of its transactions are in Canadian dollars.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

11. FINANCIAL INSTRUMENTS (continued)

Interest rate risk

Interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

12. RELATED PARTY TRANSACTIONS

The amounts due to related parties are amounts due to directors and officers. The balances are unsecured, non-interest bearing and have no specific terms for repayment.

As at March 31, 2022, the Company has \$3,253 (2021 – \$68,404) due to the related parties reported as part of accounts payable and accrued liabilities (Note 8) broken down as follows:

Year ended	March 31, 2022	March 31, 2021
Former CEO	\$ -	\$ 15,125
Chief Financial Officer	-	9,575
Corporate Secretary	3,253	3,704
President and CEO	-	40,000
Due to related parties	\$ 3,253	\$ 68,404

As at March 31, 2022, \$10,000 (2021 - \$Nil) management fees for the CEO and \$6,500 management fees to the CFO were recorded as prepaid expenses (Note 6).

12.1 Related party expenses

During the year ended March 31, 2022 and 2021, the Company entered into the following transactions with related parties:

Year ended	March 31, 2022	March 31, 2021
Expenses paid or accrued to directors of the Company, senior officers and companies with common directors:		
Management and administration fees	\$ 481,420	\$ 279,022
Consulting fees	55,500	30,000
Share based payments	1,227,662	107,199
Total related party expenses by type	\$ 1,764,582	\$ 416,221

PATRIOT BATTERY METALS INC.

Shares issued for exploration and evaluations assets	2,304,000	555,000
Warrants issued for exploration and evaluations assets	\$ -	\$ 224,409

14. COMMITMENTS

The Company has certain commitments related to key management compensation for \$26,500 per month with no specific expiry of terms (Note 12).

The Company is bound by management agreements with the CEO and CFO according to which, in the event of termination of the agreement, the Company will be liable for the remaining balance of fees and a lump sum equal to two times their annual standing management fees.

PATRIOT BATTERY METALS INC.
Notes to the Consolidated Financial Statements
As at and for the years ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

14. COMMITMENTS (continued)

On August 4, 2021, the Company engaged an arm's length party to provide the Company with marketing services for an aggregate amount of \$1,859,100 (USD \$1,500,000) for a period of 18 months. The contract was broken into 3 phases of 6-month terms at \$619,700 (USD \$500,000) for each term. On October 14, 2021, the Company amended the marketing services agreement such that the initial term of six months will be reduced to two months. The commencement of the second and final term will adjust accordingly. As of the date of this report, the Company has paid the second instalment under the plan. The Company terminated the agreement prior to the end of the second term which was subsequent to year end.

The Company has certain commitments in connection with its mineral properties (Note 7).

15. FLOW-THROUGH PREMIUM LIABILITY

During the year ended March 31, 2022, the Company issued 17,973,856 flow-through units for gross proceeds of \$11,000,000 and recognized a deferred flow-through premium of \$2,462,418, non-cash, as the difference between the amounts recognized in common shares and the amounts the investors paid for the units.

As at March 31, 2022, the flow-through premium liability outstanding relating to these flow-through shares was \$1,862,874 (2021 – \$Nil). The Company is required to spend approximately \$8,321,741 in eligible exploration expenditures.

During the year ended March 31, 2022, the Company recognized flow-through income of \$599,545 in the statement of loss and comprehensive loss (2021 – \$Nil).

16. TAXES

(Expressed in Canadian dollars)

17. EVENTS AFTER THE REPORTING PERIOD

Subsequent to March 31, 2022, the Company issued 7,365,664 common shares for warrants exercised and 582,632 common shares for options exercised.

On April 6, 2022, the Company granted an aggregate 2,525,000 incentive stock options (the "Options") to officers, directors and consultants of the Company. The Options are exercisable at \$1.74 per share for a period of three years from the date of grant. The Options granted are under and governed by the terms of the Company's incentive stock option plan.

On May 1, 2022, the CEO of the Company resigned and has been appointed in a new role of Vice President – Corporate Development. The President has accepted the role as the new CEO of the Company on the same date. As per the settlement agreement and release between Company and the former CEO dated April 25, 2022, the Company paid a lump sum amount of \$240,000 as a separation payment in accordance with his agreement.

On May 2, 2022, 11,667 options exercisable at \$1.80 expired unexercised.

On May 11, 2022, the Company engaged an arm's length third party to provide marketing services. Under the engagement, the third party will be paid a fee of \$10,000 per month for Marketing Services commenced May 16, 2022, for an initial six-month period. The arrangement may automatically be renewed on a month-to-month basis thereafter and at the option of the Company.

On May 17, 2022, the Company engaged an arm's length service provider for a marketing campaign. The total contract price is US\$70,000, with half due on signing date and second half due on August 17, 2022.
